

Create epic link from backlog panel is not working in scrumboards

문제

'Create Epic' link is not working:

- No error is thrown in GUI
- No error in logs
- When clicking it, nothing happens

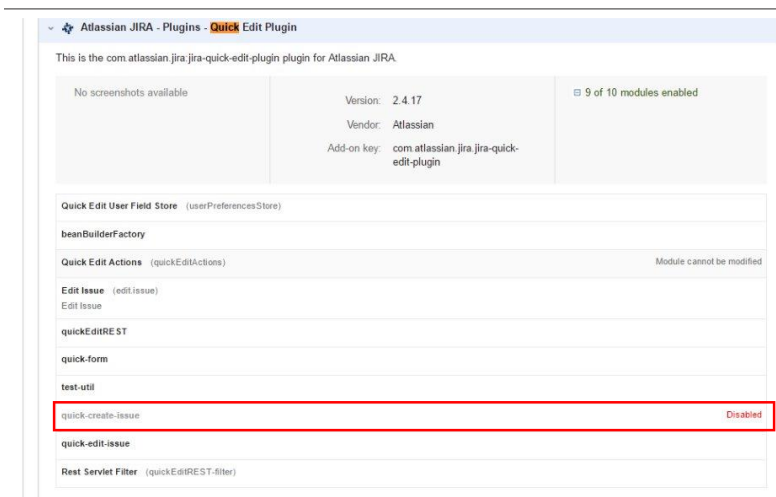

진단

Environment

- No customization / Normal environment

원인

This is due to the module quick-create-issue from Atlassian JIRA - Plugins - Quick Edit Plugin is disabled manually by the user

해결방법

Re-enable this module again. This module should not be disabled as this is a system plugin
